

## Your stay

### ARRIVAL 2pm

You can arrive anytime after 12 noon. The cleaners will still be preparing the house, but you are welcome to drop off your bags, and this may be a good opportunity to orientate yourselves to the village.

### KEYS

To get into the house there is a key box. It is positioned on the left hand side on the wall just above the terracotta ledge, as soon as you enter through the garden gate from the road. It is small and grey. The code will be provided before you arrive. Entering the code will release the key to the front doors. Once inside there is a complete set of keys on the desk immediately to your right. This is a full set of keys, so use these and return the original key to the box. To return the key to the box, push the clear button and re-enter the code (or the other way round) to release the catch to put the key back. Hope that this makes sense!

### DEPARTURE

The cleaners arrive at 10am and have to get started promptly. It would be great if the upstairs is vacated by then so they can make a start there. Please be out of the property by 11.30.

If you are able to please can you strip the beds and leave the sheets in the hall. This helps the cleaners know which beds have been used and prevent unnecessary washing.

**Please turn the thermostat down to the temperature of 10 and the water back to the auto position.**
